Article 4.4.(5) of the pension scheme rules of Pensioenfonds Astellas and Pensioenkring Astellas states that the determination of the temporary partner's pension is subject to a maximum pensionable salary (€137,800 on a full-time basis for the year 2024). In determining the partner's pension, Pensioenfonds Astellas made the mistake of not capping this salary. Stap is compliant with the rules and has capped the pensionable salary when determining the temporary partner's pension. As a result, you wrongly see a higher amount for the temporary partner's pension in the letter from Pensioenfonds Astellas and the correct (capped) amount in accordance with the rules in this letter.
